EXCLUSIVE ANCHORING SOLUTIONS

SOLID SECURE ANCHORED

When used to support a container, screw piles guarantee a solid, secure, and built-to-last foundation. Not only are they environmentally friendly, GoliathTech screw piles are also removable and reusable making them the only solution suitable for both permanent and temporary structures.

LOCKING HEAD

DUAL LOCKING HEAD

L-BRACKET FOR SIDE SUPPORT WHEN CONTAINER IS CUT IN HALF

SOLID ANCHORING PREVENTS MOVEMENT

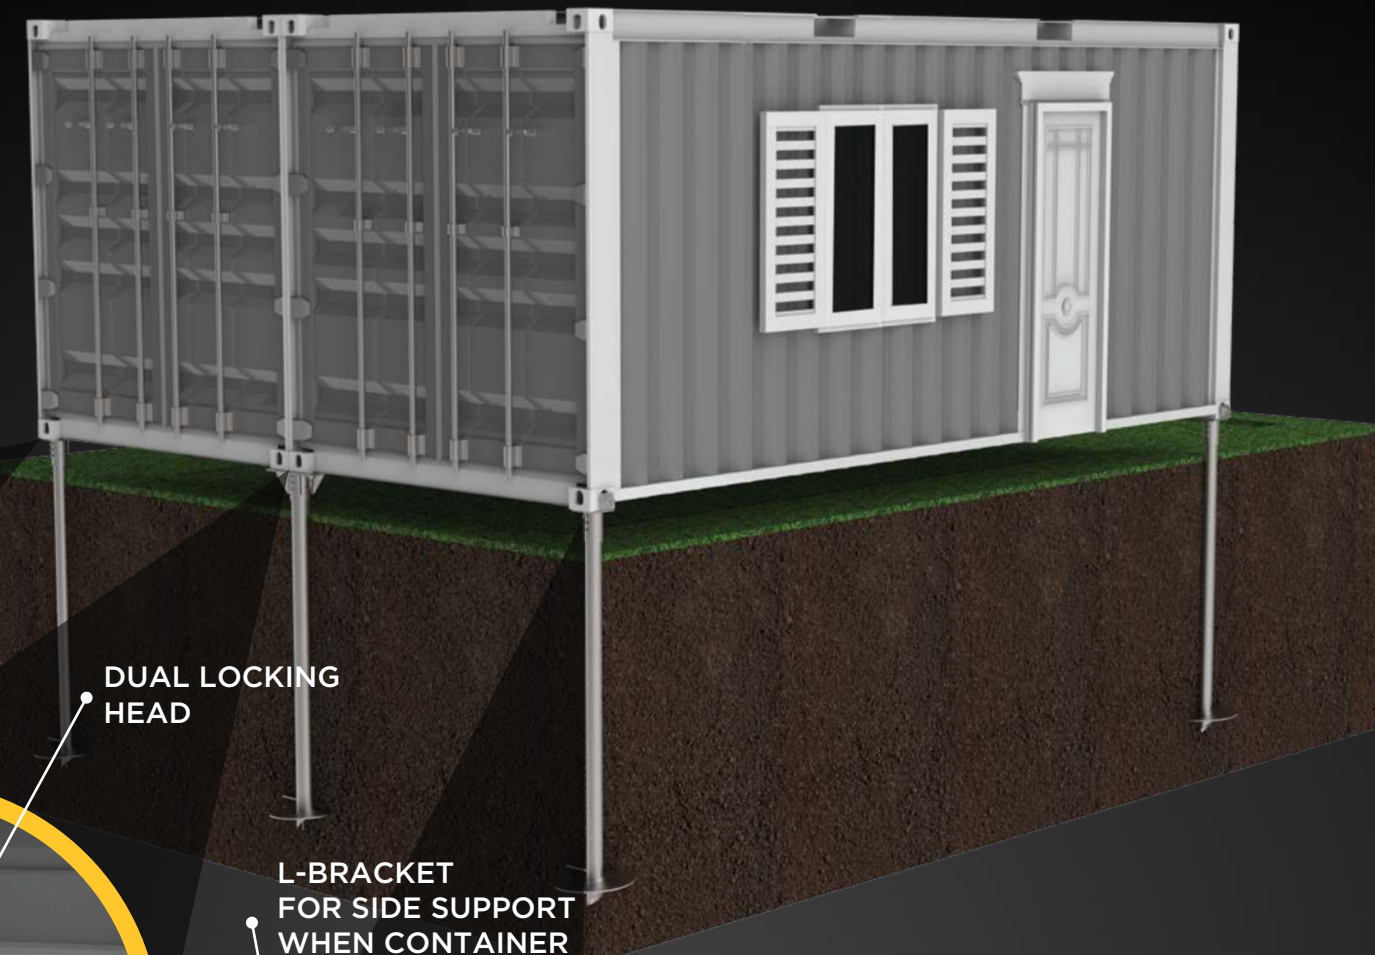

Our screw piles are installed deep into stable soil to support all structures in any environmental condition or soil type :

- Cohesive and cohesionless soil
- Boggy or waterlogged soil
- Silt, sand or clay

INSTALLATION IN HOURS USING SMALL EQUIPMENT

- ✓ NO CONCRETE DELAYS OR DRY TIME
- ✓ NO MESS
- ✓ NO WEATHER DELAYS

- ✓ NO SOIL DISPLACEMENT OR REMOVAL
- ✓ REMOVABLE AND REUSABLE

QUALITY ENGINEERING

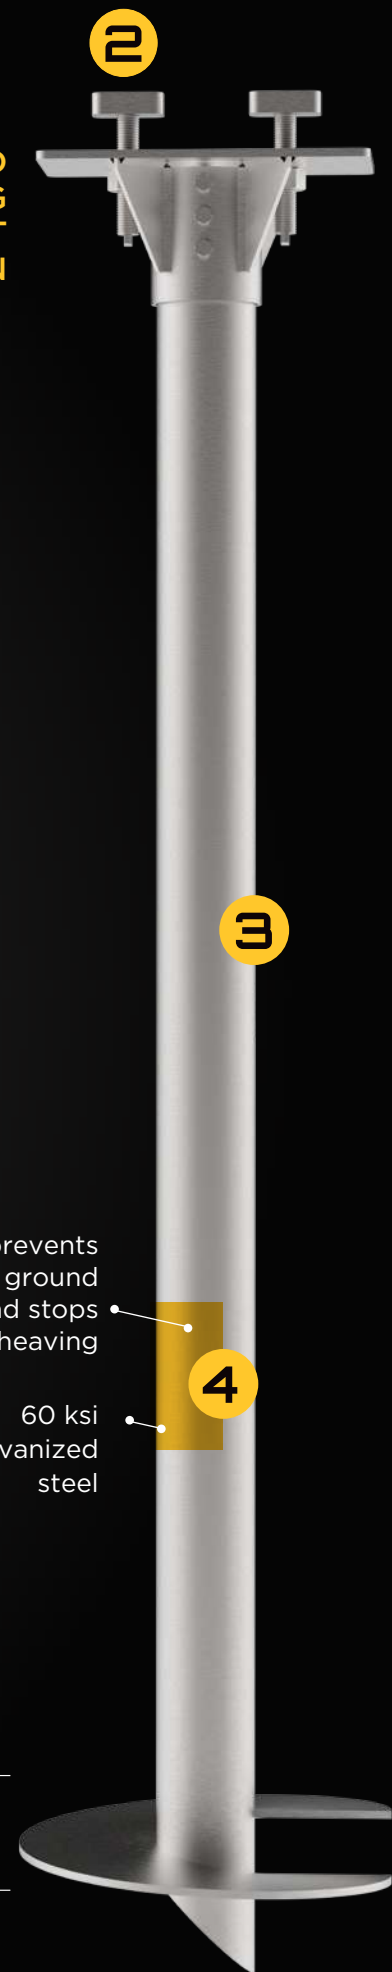

- 1 CUSTOM LOCKING HEAD
- 2 STRONG & SECURE CONNECTION
- 3 EXTENSIONS AS NEEDED TO REACH STABLE
- 4 GALVANIZATION PROTECTS STEEL FROM CORROSION

1 PATENTED LOCKING SUPPORT SOLUTION

Polyurethane prevents freezing ground around helix and stops winter heaving

60 ksi galvanized steel

3-inch pitch

WE ARE GOLIATHTECH

THE PILLARS OF YOUR PROJECTS

GOLIATHTECH'S INSTALLATION PROMISE

Our network of certified installers put their vast experience to work to guarantee optimal anchoring of each pile.

Because the quality of an installation is as important as the quality of the piles, all GoliathTech installers have received training at our factory and are certified technicians on the installation of our products.

Installers use mini excavators equipped with our proprietary calibrated torque-reading equipment, which allows them to determine the exact tension and compression values on each site. Their expertise ensures that the screw piles and the supported structure are built to last.

**BACKED BY THE GOLIATHTECH
PROMISE, GUARANTEED!**

QUITE SIMPLY SUPERIOR.
